LETTER OF RECOMMENDATION

To the Admissions Committee,

I am pleased to write this letter of recommendation for Mr. Jaime Sandoval Ricano, whom I had the opportunity to meet and observe during his three-week educational programme in Singapore, organised by Bluesky Education. As Chief Executive Officer, I have had the privilege of working with students from different countries and educational backgrounds, and I have developed a strong appreciation for those who distinguish themselves not only through academic ability, but also through their character, initiative, curiosity, and desire to contribute to others.

During the programme, Jaime participated in our Green Tech Youth Summit, where students developed ideas around sustainability, innovation, and the future of our society before presenting their work. Based on feedback from our teachers and programme facilitators, Jaime performed particularly well in both his project and presentation, demonstrating strong communication skills, confidence, and the ability to develop and articulate his ideas effectively.

What impressed me most, however, was Jaime's attitude outside the formal sessions. While many students spent their breaks socialising with their peers, Jaime actively approached and engaged with the educators, programme leaders, and industry professionals involved in the programme. He asked thoughtful questions and sought their advice on how he could improve himself and continue learning.

Jaime also shared his passion for helping others through finance and education, including his desire to create financial podcasts and educational content for students. This demonstrated to me not only his entrepreneurial initiative, but also his desire to use his knowledge to benefit others.

Our conversation and my observations of him left a strong impression. Jaime demonstrated a notable combination of initiative, leadership, curiosity, communication skills, and personal motivation. His willingness to seek opportunities to learn and continually improve himself reflects a level of maturity and self-motivation that I believe will serve him extremely well at university.

I therefore recommend Jaime Sandoval Ricano with confidence for admission to your university. I believe he will not only benefit from a challenging university environment but will also contribute positively to the community around him. He has the potential to develop into a thoughtful and socially minded leader, and I would be pleased to see him given the opportunity to pursue his higher education at a leading institution.

Please feel free to contact me should you require any further information regarding Jaime's participation in our programme or my assessment of his potential.

Yours sincerely,

Andy Toh
CEO of Bluesky Education
